

02/11/20

Dear Parents/Carers,

This year, our school is taking part in the Connecting Classrooms through Global Learning Programme. This is a year-long project linking our school with Crater Primary School in Nakuru, Kenya. It is a wonderful opportunity for our pupils to make new friends and learn about life in Kenya.

Our theme for the project is based around Health and Wellbeing, one of the UN's Sustainable Development Goals. Our pupils will design activities on this theme through art, music, learning outdoors, gardening, healthy choices and sustainability. They will record their own work with photographs, audio recording and short videos. The project work from both schools will then be shared regularly to give our pupils new perspectives on the world and ideas for their own learning.

If you would prefer that photographs or video of your child are not shared as part of this project, please inform your child's class teacher.

We will regularly update the school community on our Connecting Classroom activities and look forward to sharing our creativity and learning.

Mrs M. Redmond

Principal
